Amount of colour and / or texture variation
on each tile may be significant

Shade variation
Random colour and / or texture differences
from tile to tile. The final installation will
be unique.

Number of tiles per M²

Number of tiles per box

Make the most of your outdoor space and turn your garden goals into a reality with our collection of outdoor porcelain tiles.

You may be wondering what the difference is between using traditional paving or concrete paving slabs and outdoor porcelain tiles. Whilst paving has been the typical choice for many years, outdoor porcelain tiles have grown in popularity over recent years due to their extensive features and benefits.

Outdoor porcelain paving can be used to create a stunning modern outdoor patio, transform back yards, terraces and courtyards, or to create beautiful pathways and walkways.

Our collection of 20mm outdoor porcelain tiles provides an eye-catching yet functional paving option for your garden or outdoor entertaining spaces, for parties, playtime or just general relaxation with a spot of al fresco dining.

WHY USE OUTDOOR TILES?

Resistant to temperature
and weather changes

Resistant to staining
and chemicals

Frost resistant

Easy to assemble and disassemble
May differ depending on installation option used

Load resistant

Easy to clean both dry and wet

Scratch resistant

Slip resistant surface

Outdoor Style and Installation Options

Whether you have a large spacious garden or a small walled courtyard, your outdoor area should reflect your personal style and be an extension of your home; a place where you can escape, unwind and relax.

There are several installation options available to achieve the desired look for your outdoor space. Whether your preference is a fully paved surface or individual stepping stones, these methods suit a variety of ground conditions and landscaping styles.

For further information on how to install outdoor porcelain tiles using these methods, see fixing product recommendations on page 15 and our step-by-step guides at ctdtiles.co.uk

We highly recommend using an experienced professional tradesperson such as a tiling contractor or garden landscaper to tile outdoor areas.

£32.34

per M²

PROFILING SERVICE

Our profiling service allows you to create the perfect finish to your outdoor tiling projects.

Ideal for adding the finishing touches to steps, ledges, bathing and pool areas, profiling adds a stylised edge to outdoor tiles. With multiple shape options available, profiling brings a customised look to your outdoor space, and can also help improve the safety and visibility of tile edges.

Please ask a staff member for more information and advice.

FIXING PRODUCTS

These products are recommended for installing 20mm Outdoor Porcelain Tiles using the compacted stone sub-base method.

For the full installation guide and information on alternative installation options, such as a pedestal system and installation on grass or gravel, see the Guide to Outdoor Tiles page at ctdfiles.co.uk

We highly recommend using an experienced professional tradesperson such as a tiling contractor or garden landscaper to tile outdoor areas.

ULTRASCAPE PRO-PRIME SLURRY PRIMER

UltraScape Pro-Prime Slurry Primer is used to provide an exceptional bond between your outdoor tiles and bedding mortar, helping to eliminate general wear and tear from traffic load bearing, and reducing the risk of costly and high profile failures.

- User-friendly – just add water
- BS 7533 compliant
- Quick and easy application

C3058

ULTRATILEFIX PROPAVE EXTERNAL TILE GROUT

ProPave External Tile Grout is a specialist jointing compound ideal for use with outdoor tiles. Available in three colours with Colour Shield technology, ProPave Grout provides a flexible yet durable finish when cured. Suitable for joints 3-20mm.
